

1. Overview of Policy

At Ornativa, we commit ourselves to offering precious jewelry of the highest craftsmanship. If you are not completely satisfied with your purchase, we provide a structured return and exchange mechanism subject to the terms and timelines outlined below.

2. Eligibility & Return Windows

- **Standard Return Window:** Customers may return eligible products within **15 calendar days** starting from the recorded date of delivery.
- **Inspection Period:** All returns are mandatory subjects of a quality assessment by our gemology team prior to refund approval.

3. Strict Conditions for Return Approval

A return sequence will only progress if the item strictly meets the following criteria:

- **Proof of Purchase:** The **Original invoice** issued by Ornativa must accompany the return package.
- **Product Integrity:** The product must not be damaged, altered, resized, or show any signs of wear and tear.
- **Packaging Framework:** The **original product packaging**, including security tags, protective boxes, velvet pouches, and any complimentary items must be returned intact.
- **Certificates:** Any laboratory authentication certificates (IGI, GIA, SGL, or BIS Hallmark documentation) delivered with the item must be returned. Failure to provide the original certificate will attract a deduction fee or void the return.

4. Non-Returnable and Non-Exchangeable Items

Certain product lines are completely exempt from our standard return policy due to hygiene protocols and personalization constraints:

- **Customized Jewelry:** Any piece tailored to customer specifications, including personalized engravings, custom gemstone selections, or bespoke design alterations, cannot be returned or refunded.
- **Earrings & Piercing Jewelry:** For **strict hygiene and public health reasons**, earrings, ear-studs, and ear-drops are entirely ineligible for return or exchange.

5. Refund Disbursal Timeline

- **Processing Window:** Refunds are processed within **7 business days** after the product arrives at our sorting facility and successfully passes our internal quality inspection.
- **Disbursal Channel:** Approved refunds will be credited directly back to the original source payment method (Credit/Debit Card, Net Banking, or UPI gateway).

6. Exchange Framework & Parameters

Exchanges are strictly restricted to identical product corrections or equivalent value swaps. Customers can initiate an exchange sequence under the following three validated conditions:

- **Wrong Size:** If a ring, bangle, or bracelet does not fit, it can be exchanged for an alternate size dimension of the exact same design layout.
- **Manufacturing Defects:** Issues related to structurally weak clasps, loose gemstone prongs, or immediate structural failures present prior to wear.
- **Damaged Product Received:** If the parcel logistics fail and a damaged item is unboxed.
Note: Customers must report transit damage within 24 hours of delivery along with photographic proof of the outer packaging.

7. Processing a Return or Exchange

To log a claim, customers must reach out to our desk at **support@ornativa.com** or call **+91-9876543210** during operational hours (Monday–Saturday, 9:00 AM–6:00 PM IST). A secure, insured reverse pickup will be scheduled by our authorized logistics partner. Do not hand over the jewelry to the pickup agent without a secure, tamper-proof return bag provided by our courier.
