

Official Product Warranty & Maintenance Policy

Document Ref: ORN-WP-2026-V1

Effective Date: July 2026

Ornativa takes pride in crafting premium jewelry using exceptional gemstones, high-purity gold, and advanced setting techniques. To safeguard your investment, every piece purchased directly from our official platforms is protected under our comprehensive structural warranty framework.

1. Warranty Tiers & Duration

- **Standard Manufacturing Warranty:** Most jewelry items include a comprehensive **2-year manufacturing warranty** covering structural integrity from the date of delivery.
- **Lifetime Manufacturing Warranty:** Premium items, specifically the **Diamond Eternity Ring collection**, include an extended lifetime manufacturing warranty against foundational defects.

2. Inclusions (What the Warranty Covers)

Our warranty explicitly covers faults arising strictly from structural anomalies, design vulnerabilities, or craftsmanship oversights during fabrication:

- **Manufacturing Defects:** Any underlying structural failures in metal casting, porosity fractures, or micro-cracks present prior to regular wear.
- **Loose Gemstones:** Prongs or bezels that become structurally unstable or loose due to manufacturing alignment issues, risking stone loss.
- **Clasp & Findings Defects:** Mechanical failure of spring rings, lobster clasps, earring posts, or safety hinges due to faulty assembly.

3. Exclusions (What the Warranty Does Not Cover)

The warranty applies solely to fabrication faults and explicitly voids coverage for issues resulting from external forces, environment, or improper upkeep:

- **Accidental Damage:** Impact fractures, bent shanks, crushed settings, or warping caused by physical drops, sports, or blunt force.
- **Scratches & Surface Wear:** Micro-abrasions, surface dulling, or scratches on precious metals and gemstones stemming from daily operational wear.
- **Lost Jewelry:** Missing full jewelry units due to misplacement, negligence, or accidental loss.
- **Stolen Jewelry:** Instances of theft, burglary, or disappearance. For security, we recommend adding personal jewelry insurance riders.
- **Chemical Damage:** Alterations in look, rhodium discoloration, or structural pitting from exposure to harsh elements, household detergents, chlorine pools, perfumes, or cosmetics.

4. Complimentary Upkeep & Servicing Benefits

To help maintain the brilliant fire and luster of your fine jewelry, Ornativa provides dedicated post-purchase maintenance to every client:

Free Cleaning Service:

Customers are eligible for a professional ultrasonic cleaning, verification of prong tightness, and polish assessment **twice per calendar year** (every 6 months) at any authorized Ornativa service center or via our secure mail-in portal.

5. Warranty Claim Protocol

To register a potential claim, email **support@ornativa.com** with your original invoice and macro photographs highlighting the area of concern. If a structural inspection verifies a production fault, Ornativa will repair or replace the component free of charge. Repairs executed by third-party external jewelers immediately void this warranty in its entirety.
